

Cat5 Storage

The cozy interior space is perfect for a variety of applications including remote job sites, storage space, tiny home communities, emergency housing, meeting rooms, student study rooms, play rooms, and many more.

Each Storage Modular Unit manufactured completely from Cat5 FRSIP's comes fully equipped with all necessary electrical connections.

The unit is built to a standard 13' L x 8' W x 9' 4" H and weighs 2500 lbs. Each unit is insulated with 4" EnerTech walls and a reinforced 6" EnerTech floor. Energy efficient LED lighting and all receptacles you may need. An air exchange unit is used to ensure fresh clean air is available to anyone who may use the room.

BUILT FOR ANY NEED, ANYWHERE
